#ISCC2015

EVENT SCHEDULE

8:00 a.m. Continental Breakfast

8:30 a.m. Welcome: **Timothy Denton**, Chair, ISCC

8:35 - 9:00 a.m. Opening Address: **Vince Mammoliti**, Treasurer, TorIX

9:00 - 10:30 a.m.

Session 1: Influencing Canadian Internet Policies, Laws and Regulation

This session will examine how ISCC can influence the development of Canadian laws, regulation and public policy relating to the Internet to prevent harm to the Internet. We will discuss parliamentary, bureaucratic, regulatory and political aspects of the development of Internet laws, regulation and policy, as well as government relations strategies and tactics.

10:45 to 12:15 p.m.

Session 2: ICANN Accountability and the Transition of IANA Stewardship

This session will examine the work that is currently being done to make ICANN more accountable to its stakeholders and to transition the IANA function stewardship away from the US National Telecommunications and Information Administration (“NTIA”) and why these issues matter to everyone. The session will start with a description of the structure and functions performed by ICANN, including the IANA function. The role of ICANN in the Internet multi-stakeholder governance model will be discussed, and the involvement of governments in Internet governance will be addressed. This background will then be used as the launching point for a discussion of how the evolution of ICANN and the transition of the IANA function can affect the openness, security, stability and resiliency of the Internet.

12:15 to 13:30 – Luncheon and Keynote Speech, **Bryon Holland**, President, CIRA

13:30 to 15:00

Session 3: Securing our Internet Traffic

This session will examine the legal, regulatory and policy issues related to the practice of routing Canadian domestic Internet traffic through the US. It will also explore the extent and consequences of the practice and alternatives to the practice.

15:15 to 17:15

Session 4: Internet Policies and Protecting the Interests of End-Users

This session will examine a number of public policy issues being debated in Canada and their impact on the interests of end-users, including:

- Net neutrality and the proposal of the Quebec government to require Internet service providers to block certain online gaming websites
- The tension between Internet openness / the protection of privacy and national security /law enforcement
- Broadband access as a basic service
- The roles of competition and regulation in the provision of Internet access

17:15 to 17:25 – Remarks, **TekSavvy Solutions Inc.**

17:25 to 17:30 - Closing Address, **Lynne Hamilton**, President, ISCC.

17:30 to 20:00 - **Networking Reception**
